

# FFT - Friendly Future Town

Dziki z politechniki  
Kamil Bielecki  
Mateusz Ciałowicz

Rapid  
development of  
cities

- Comfort of citizens
- Crowded settlements
- Environment pollution

BALTIC  
SAT  
APPS

## Solution from the sky

- Satellite data in order to help developers
- Voice of citizens
- Machine Learning to support architects
- Planning environmentally friendly towns
- Business assistance

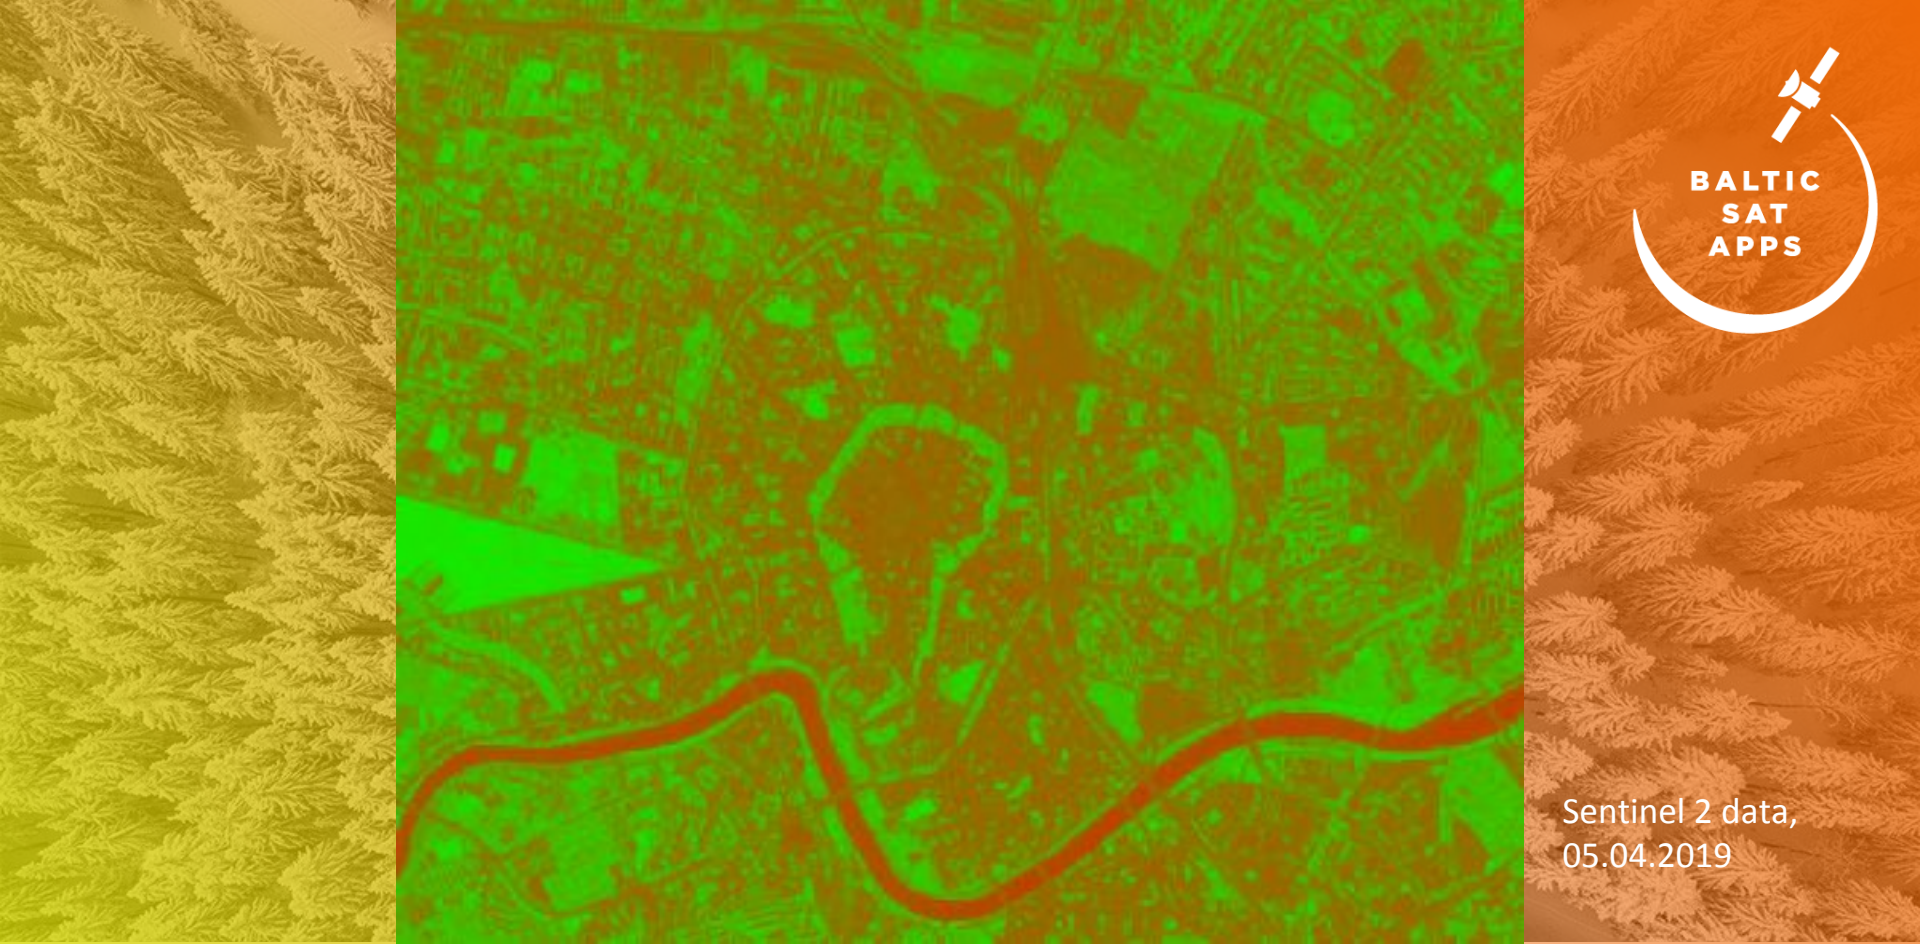

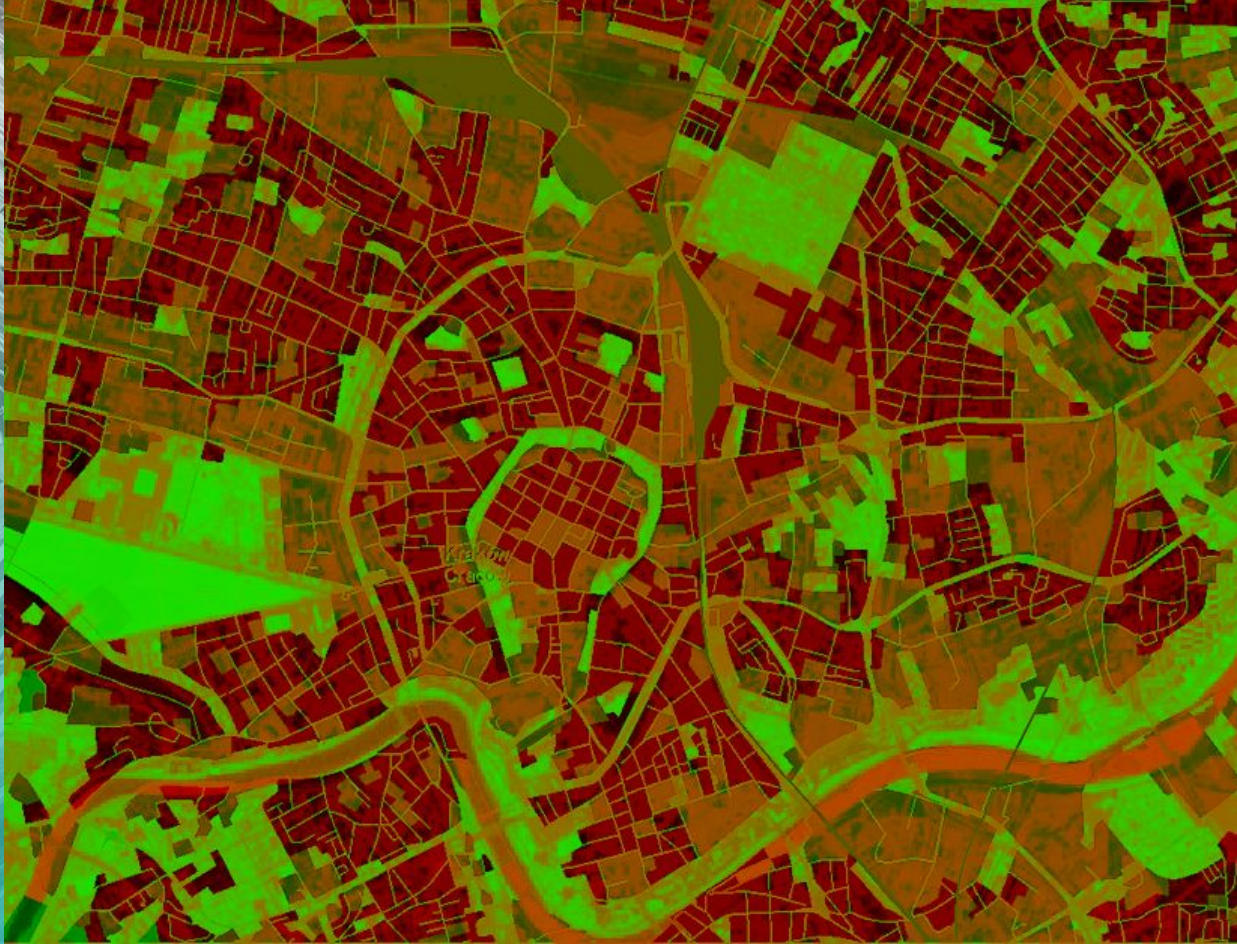

Copernicus,  
Urban Atlas 2012

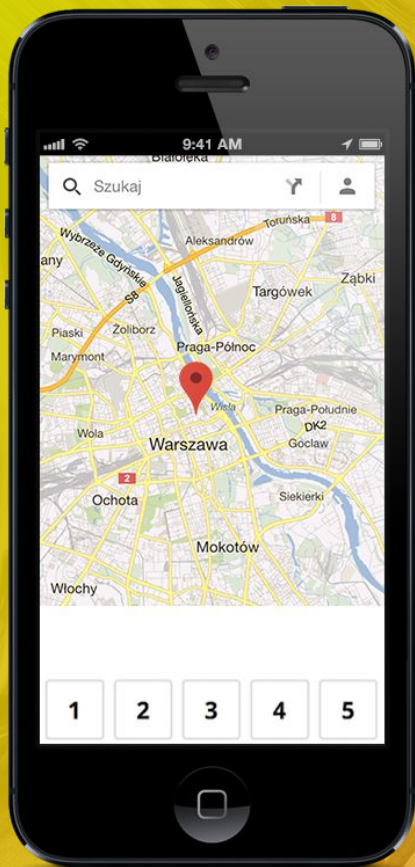

Sentinel 2 data,  
05.04.2019

BALTIC  
SAT  
APPS

- Choose your neighbourhood on the map
- Rate the comfort of living
- Vote!

A sample district plan generated by machine learning algorithm, based on user votes and satellite data.

BALTIC
